

*So what is the big deal about what type of candle I burn?*

*There is a difference .....*

*Do you want to burn safe, paraffin (petroleum) & lead free candles?*

*Wouldn't that be better for your health?*

## INTRODUCING

# ecoya

Introducing a new evocative all Australian-made candle range, made from natural soy based wax that is environmentally-friendly and enhances the scent 'throw' and burn time of our exotic fragrances.

The brand philosophy of 'Ecoya', taken from the words ecological and soya, simply means *"Naturally for you"*.

Our candles have been designed with your lifestyle in mind. Using only the finest natural waxes and oils, sourced from all over the world, our hand-crafted candles are designed to enhance any living environment – from the living room to intimate dinner party settings to the office or even your hotel suite.

Our gorgeous palm-sized **Travel Candles** make your travelling experience more pleasurable, infusing your hotel room with soothing fragrances that help fight the jet lag or set the scene for an evening of sensual indulgence. These 55 gram tins will burn for up to 15 hours.

up

Our **Everyday Tin Candles** are specifically designed to enhance your everyday environment, energising fragrances for while you work or entertain at home. These 170 gram tins will burn for up to 30 hours

**Oval Frost** candles add a touch of elegance to any décor, to create a serene ambiance for all your special occasions. Will burn for up to 30 hours.

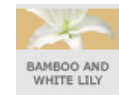

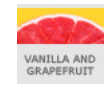

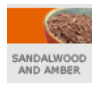

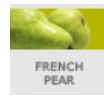

The Ecoya range also features **Soy Melts**. These are for use in oil burners as an alternative to mixing oils & water. Clean, easy & long lasting. There are 5 melts per tube, each fragranced for up to 30 hours. We even have safe to burn Tea Lights for your burners.

Ecoya Soy Wax Votives will enhance your environment by introducing the perfect scent and creating a serene ambience for any occasion. Each votive will fragrance your room for up to 18 hours. Frosted votive glasses are also available.

All products are made from a natural alternative to paraffin (petroleum) waxes, keeping your environment free from potential toxins. Our candles are hand poured by master candle makers using natural wax, pure cotton (lead free) wicks and exotic fragrances. (These are absolutely beautiful).

*Ignite your senses with this extensive & beautiful range of natural candles!*

## Unique Fragrances

These fragrances are fashioned from complex blends of oils, all captured in pure natural waxes. The result is a candle that ignites your senses in any environment:

- Bamboo & White Lily
- Vanilla & Grapefruit
- Mango White Tea
- Sandalwood & Amber
- French Pear
- Fig & Cassis
- Wild Frangipani
- Lime & Sandalwood
- Patchouli & Musk
- Sweet Pea & Jasmine
- Espresso

*So there you have it .....*

The waxes are:

- 100% natural
- Longer, cooler and cleaner burning
- Manufactured using FDA & Kosher standards
- Biodegradable, free from pesticides and herbicides
- Free from genetically modified material
- Excellent for scent throw with fragrance & essential oils
- Very stable, allowing for a long shelf life.

## Where to buy

Peter & Julie Boardman, Healthcare Clinic.

As a healthcare clinic, we look for all types of products that meet standards of being non-toxic to the human body, not tested on animals, and to our knowledge are harvested ethically.

You are welcome to phone us and arrange a look at this beautiful range of candles. Find which fragrance suits you the best. Enjoy!!!
